Indianapolis, IN 46204

RE: Annual IPL Cogeneration Filing

Under 170 IAC 1-6, the Thirty-Day Administrative Filing Procedures and Guidelines Rule, Indianapolis Power & Light Company (IPL) submits herewith for filing a revision to our Tariff No. E-18 to be entitled:

Rate CGS - Cogeneration and Small Power Production
2nd Revised No. 122

IPL is filing this tariff revision pursuant to 170 IAC 4-4.1, the Cogeneration and Alternate Energy Production Facilities Rule. Specifically, Section 10 requires that on or before February 28 of each year a generating electric utility shall file with the Commission a standard offer for purchase of energy and capacity at rates derived from the appropriate sections of this rule.

This tariff revision supersedes the 1st Revised No. 122 approved in IPL's annual cogeneration filing made February 28, 2019 (Cause No. 50255).

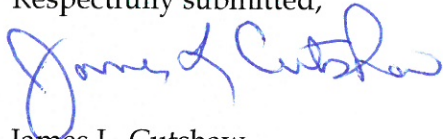

The Company's standard offer and form contract for the purchase of energy and capacity from cogeneration and alternate energy production facilities operating within IPL's service territory was revised and approved on October 29, 2019 in Cause No. 50299.

Only the affected tariff sheet is submitted for approval in this filing. All other tariff sheets of Rate CGS and the riders for maintenance, back-up and supplementary power remain unchanged from those previously approved.

This filing also includes a mark-up of the existing tariff sheet, and supporting documentation and assumptions consistent with prior Annual IPL Cogeneration Filings. In addition, this filing contains the Determination of Average System Losses for the Twelve Months Ended December 31, 2019, a Verified Statement by IPL concerning notification of customers regarding the proposed revision of Rate CGS, a copy of such notification, and proof of publication.

If you have any questions, please feel free to contact me at 317-261-5341, at the address on the letterhead, or at Jim.Cutshaw@aes.com

Respectfully submitted,

James L. Cutshaw
Senior Manager, Rates & Regulations

RATE CGS (Continued)

INTERCONNECTION CONDITIONS AND COSTS: (Continued)

the Company for operation parallel to its system. The Qualifying Facility shall bear full responsibility for the installation and safe operation of this equipment.

- (e) Breakers capable of isolating the Qualifying Facility from the Company shall at all times be immediately accessible to the Company. The Company may isolate the Qualifying Facility at its own discretion if the Company believes continued parallel operation with the Qualifying Facility creates or contributes to a System Emergency. System Emergencies causing discontinuance of parallel operation are subject to verification by the Commission.
- (f) To properly record numbers of kilowatthours for, respectively, purchase and sale, the following configurations shall be the basis for metering:

- (1) Where purchases are intended to be less than 1000 kilowatthours per month, and the Company and Qualifying Facility mutually agree, a single bidirectional meter may be placed between, at one side, the Company system and, on the other side, the Qualifying Facility and any load associated with it.

- (2) Where such measurement is appropriate for measurement of energy, the circuit shall include at minimum two monodirectional meters in a series arrangement between, at one side, the Company system and, on the other side, the Qualifying Facility and any load associated with it:

- (3) Where such is appropriate for measurement of energy, the circuit shall include a monodirectional meter between the on-site load and the Company and, in a series arrangement, two monodirectional meters between the Qualifying Facility and the Company system:

- (4) The meter measuring purchases by the Company shall be of a design to record time periods, and shall be capable of electronically transmitting instantaneous readings.
- (5) Other metering arrangements shall be the subject of negotiations between the Company and the Qualifying Facility.

RATE FOR PURCHASE:

The rate the Company will pay each Qualifying Facility for energy and capacity purchased will be established in advance by written contract with the Company as filed and approved by the Commission and will be based on the RATE FOR PURCHASE on file from time to time with the Commission, adjusted as outlined in the remaining parts of this section. Unless otherwise agreed the RATES FOR PURCHASE shall be:

- (1) Capacity \$~~5.586.00~~ per KW per month
- (2) Energy - Peak Period 2.~~3579~~¢ per KWH
- Off Peak Period 2.~~2147~~¢ per KWH

Verified Statement of Indianapolis Power & Light Company (IPL)
Concerning Notification of Customers Affected by the Revision of Rate CGS
In the Annual IPL Cogeneration Filing

Indianapolis Power & Light Company complied with the Notice Requirements under 170 IAC 1-6-6 in the following manner:

- beginning on February 20, 2020 and continuing through the filing date, the attached notice was posted in the Customer Service Office at 2102 N. Illinois Street
- beginning on February 20, 2020 and continuing through the filing date, the same notice was posted on IPL's website under the Pending section of the Rates, Rules and Regulations area
- a legal notice placed in the Indianapolis Star on February 20, 2020 as evidenced by the attached Publishers Affidavit; and
- beginning on the filing date, a copy of the Annual IPL Cogeneration filing will be included on IPL's website under the Pending section of the Rates, Rules and Regulations area

I affirm under penalties for perjury that the foregoing representations are true to the best of my knowledge, information, and belief.

Dated this 28th day of February, 2020

James L. Cutshaw
Senior Manager, Rates & Regulations

LEGAL NOTICE

Notice is hereby given that on or about February 28, 2020, Indianapolis Power & Light Company expects to submit a revision to its Tariff No. E-18 to be entitled Rate CGS - Cogeneration and Small Power Production, 2nd Revised No. 122 ("Rate CGS"). The revision to Rate CGS will affect any customer taking electric service under the Company's standard offer and form contract for the purchase of energy and capacity from cogeneration and alternate energy production facilities operating within IPL's service territory. IPL expects approval of the filing on or about April 1, 2020.

This notice is provided to the public pursuant to 170 IAC 1-6-6. The contact information, to which an objection should be made, is as follows:
