Save**

For Your Business Restaurant Rebates and Incentives

Efficiency is served

When you run a restaurant, you need equipment that can work as hard as you do. Upgrading to energy-efficient lighting not only saves energy and reduces maintenance, but also helps you set the stage for every meal, with improved light quality and color. Other easy upgrades like pre-rinse spray valves, occupancy sensors and programmable thermostats can serve up even more appetizing ways to reduce costs and improve business.

The starting course: no-cost upgrades

Indianapolis Power & Light Company's (IPL) Small Business Direct Install Program helps small businesses like yours save energy and reduce costs with complimentary energy-saving upgrades, generous rebates and expert recommendations on how to save even more.

It all starts with a free on-site energy assessment from our professional staff. The assessment lasts 1-2 hours and can help save you around **\$825** a year* on energy costs. We're happy to work around your busy schedule, so make an appointment today and we'll help you find the perfect recipe for energy-saving success.

Getting started is easy

Call **317.829.9154** to schedule your free assessment today, or discover more at **IPLpower.com/SBDI**.

The IPL Small Business Direct Install Program is administered on a first-come, first-served basis. Availability of specific energy-saving measures may vary.
*Energy savings calculated at estimated utility rate of \$0.085/kWh.

Complimentary items may include:

- LED lamps
- Occupancy sensors
- LED exit lamps
- Programmable thermostats
- Pre-rinse spray valves
- Faucet aerators
- Water heater pipe insulation

Benefits of an on-site assessment:

- An average of \$825 a year* saved
- Reduced maintenance
- Better lighting color and quality
- Even more appetizing-looking food
- Improved dining ambiance

Eligibility

To participate, you must be an IPL business customer with an active IPL service ID at the location of the installed equipment.
