

Opt-Out Form

IPL ENERGY EFFICIENCY PROGRAM

DEFINITIONS

DSM Rate Adjustment Factor: Mechanism utilized by utilities to collect Energy Efficiency Program Costs.

Energy Efficiency (EE) Program: A program sponsored by an electricity supplier or a third party implementer designed to implement energy efficiency improvements (as defined in 170 IAC 4-8-1(j)) for customers.

Energy Efficiency (EE) Program Costs: Program costs approved by the Indiana Utility Regulatory Commission (IURC), including reconciliation of such costs.

Qualifying Customer: Receives service at a Single Site constituting more than one megawatt of electric demand from an electric supplier.

Qualifying Load: A Single Site with at least one Service constituting more than one megawatt of electric demand from an electric supplier for any month within the previous 12 months prior to the Qualifying Customer's opt-out notification to IPL. This shall be measured with a demand meter.

Single Site: A Single Site shall be defined as contiguous property.

Please complete this form to notify Indianapolis Power & Light Company (IPL) if your qualifying IPL Services will not participate in IPL's Energy Efficiency (EE) Program. Please return this form via one of the following **on or before** July 1, 2020 in order to opt out effective for bills rendered with the first billing cycle for January 2021.

Email: ipl.strategiccustomeraccts@aes.com

US Mail: Indianapolis Power & Light Company
Strategic Customer Accounts
One Monument Circle
Indianapolis, IN 46204

THIS COMPLETED FORM MUST BE RETURNED TO IPL ON OR BEFORE JULY 1, 2020 TO OPT OUT OF THE EE PROGRAMS EFFECTIVE WITH THE JANUARY 2021 BILLING CYCLE.

A QUALIFYING CUSTOMER WHO NOTIFIES IPL AFTER JULY 1, 2020, OF ITS INTENTION TO OPT OUT WILL HAVE AN OPT OUT EFFECTIVE DATE OF JANUARY 1, 2022.

FOR MORE INFORMATION ABOUT THESE EE PROGRAMS, VISIT OUR WEBSITE AT IPLpower.com/Ways_to_Save/Business/.

If you proceed to opt out, you will no longer be eligible to participate in any EE Program offered by IPL or receive rebates for any energy savings projects you may install in the future during the period of opt out. Qualifying EE projects completed at a site prior to the effective date of the opt out will still receive payment. By opting out, the applicable DSM Rate Adjustment Factor(s) contained in Standard Contract Rider No. 22 will not be charged for each IPL Service located at a Single Site with Qualifying Load. Note that customers who opt out will remain responsible for EE Program administrative and delivery costs that accrued, were incurred, or relate to EE investments made before January 1, 2021, and will be billed for those costs in accordance with Standard Contract Rider No. 22.

These services/sites will not be eligible to participate in IPL's EE Program during the period of opt out.

- For each qualifying Single Site that wishes to opt out of participating in IPL's Energy Efficiency Programs, list all IPL Services. Specifically identify the Service(s) using more than 1 MW of electric demand for any month within the previous 12 months.
- IPL may be required to provide the Indiana Utility Regulatory Commission (IURC) with a list of those industrial or large commercial customers that have opted out of participation.
- **You may opt back in to the EE Program effective January 1 of any year by providing notice by July 1 of the previous year. Once you opt back in to the EE Program, you must participate for at least three (3) years after the date on which you opt back in and may only opt out effective July 1 of the year following the third year of participation. If you opt out again before the end of the three year period, you remain liable for and must continue to pay rates that include the EE Program Costs. The Energy Efficiency Program Opt In Form can be found at IPLpower.com or by contacting your IPL Strategic Account Manager.**

If needed, use a separate document for each qualifying Single Site and include it when you submit this form to IPL. If an Energy Efficiency Incentive is pending or was received for projects at the site since 2010, please simply check the box for any Service at that site.

Company Name _____ (as it appears on your bill)			>1 MW Demand in Previous 12 months?	Pending or Previously Received Incentive? (since 2010) (if known)
Service ID	IPL Account #	Service Address of Qualifying Single Site (Street, City)	✓	✓

Provide account information **exactly** as it appears on your IPL bill.

Please check the box to acknowledge the statement.

We hereby notify IPL of our election, pursuant to Ind. Code 8-1-8.5-9(f), not to participate in any IPL EE programs at our eligible site(s). We understand that to be eligible to opt out of EE programs, we must have more than 1 MW of electric demand on a single IPL Service at a Single Site, and that all IPL Services to that Single Site will also be opted out. We also understand that this opt out will be effective for bills rendered with the first billing cycle for January 2021. We further understand that we will remain responsible for EE Rider costs that accrued, were incurred, or relate to EE investments made before January 1, 2021. Finally, we understand that we have the ability to opt back in to participation of IPL EE programs on January 1 of any subsequent year by providing notice on or before July 1 of the prior year.

Complete this section with information about the person at your company who is authorized to make decisions concerning this form and your IPL account. In addition, provide your company information, as it appears on your IPL bill.
