Motor Drive

A MONTHLY
FULL-SERVICE ELECTRIC
CAR SUBSCRIPTION

Motor Drive is a monthly full-service electric car subscription designed to save drivers time, money, and the headaches of car ownership. Offering the most popular electric models on the market, Motor Drive was created to introduce electric cars the right way, as we work to decarbonize transportation. Designed with flexibility in mind, our subscription service provides an affordable alternative to renting, leasing, or buying.

Why Us?

The first of its kind in Indianapolis, Motor Drive's monthly subscription service allows members to start driving electric right away, without the commitment of a purchase or lease. Drivers have the flexibility to choose from the best electric car makes and models, and cars are delivered directly to the home. Charging is easy, with several options available—the simplest being a standard wall outlet (120-volt). Motor Drive's 24/7 concierge service even handles insurance, routine maintenance, and any questions that come up along the way.

About Motor

Motor is a company dedicated to accelerating the adoption of electric cars. We work with individuals, businesses, and utility companies to make it simpler for people to start driving electric. For more information or to join the waitlist, visit motorev.net/drive. Motor is a subsidiary of The AES Corporation. AES is a Fortune 500 company that is accelerating a safer and greener energy future for its customers in cities and countries around the world, including Indianapolis through its subsidiary Indianapolis Power & Light Company (IPL).
